

Monday June 18

Tuesday June 19

Wednesday June 20

Thursday June 21

Genome Based Breeding
- New Breeding
Technologies

**Phenotyping on different
scales**
- Traits

Plant Microbiome

Seeds for the future
- Seed Biology

Niche and Orphan Crops

Photosynthetic Diversity
- Resource Use Efficiency

Natural Products

Environmental Resilience
- Abiotic Stress

Seeds for the future

**Phenotyping on different
scales**
- Methodologies

Science Policy
- Open Science

Genome Evolution
– Epigenetics

Photosynthetic Diversity

Genome Evolution
- Computational

Seeds for the Future
- Seed & Nutrition

**Science Communication
Workshop**

Plant Microbiome
- Biotic Interactions

Environmental Resilience
- Global Change

Career Workshop
